

Multiple cloud services through a single sign on with instant secure access !

KDDI Secure Access powered by Soliton

Reliable web access

Guaranteeing security of your devices through the network with device authentication and user authentication!

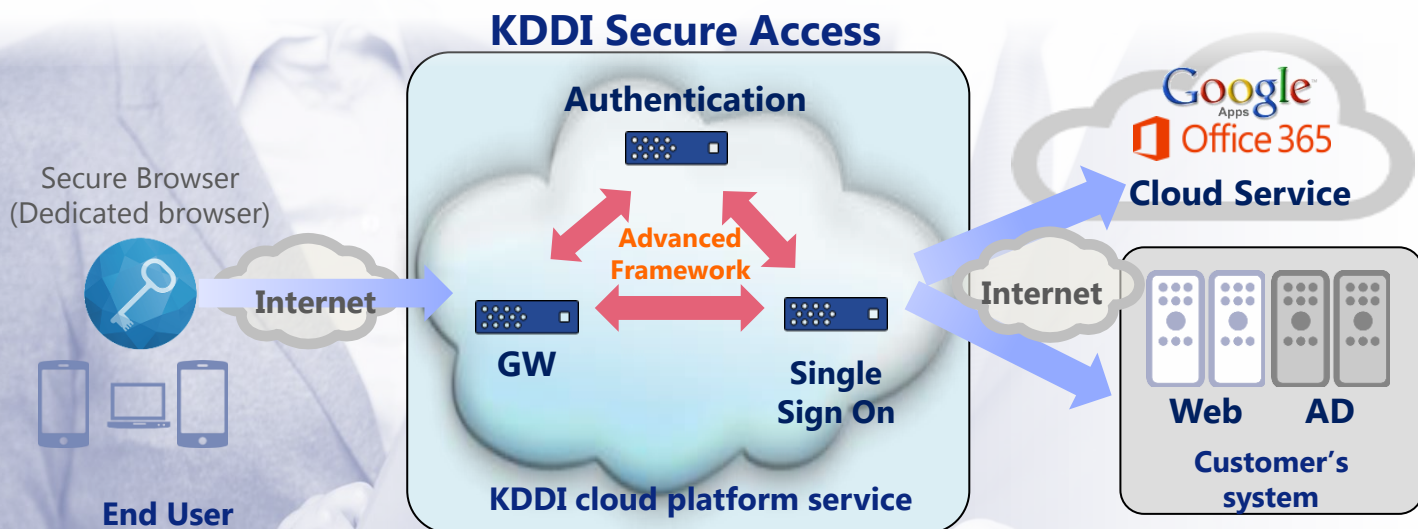

Not a single piece of data left on the devices

Wiping out data from your device automatically through our dedicated application, surely reducing the risk of threats to the data!

Access with one login credentials

Connecting to multiple cloud services instantly and safely with secure access!

Advanced security strategy without complexity!

Browser Gateway

Establish secure access and prevent data theft!

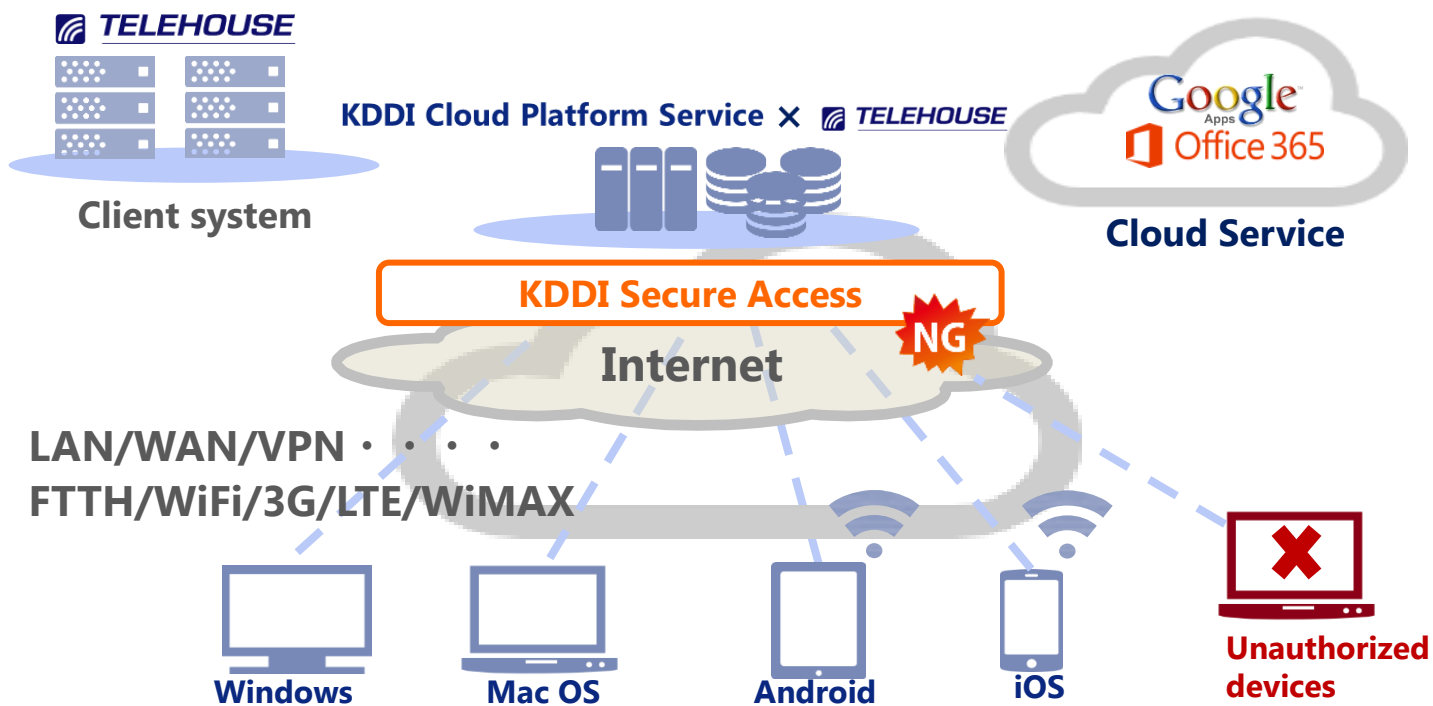

Authentication

Blocking unauthorized access by a bundled strong authentication system!

Single Sign On

Simplify use of various cloud services!

Designed for multiple devices

Easy Deployment

- ◆ No specialized IT expertise required
- ◆ A multi-device compatible interface
- ◆ No need to connect via a VPN.
