

Any size from small office to large factory

## New Office Setup / Office Relocation

### Provide ICT requirements in new site with one stop service

We offer communication networks, LAN, data center and cloud services, servers and other devices and more. Furthermore we offer a range of implementation, operation, maintenance, and security support services.

### Experienced staff make your office set-up experience a great one

Our highly skilled local personnel, who are most familiar with local systems and regulations, will fully support you in either Japanese, English, or the local language, from implementation through to after-sales services including maintenance.

### Supporting your coordination with affiliate offices

For customers who are looking to relocate or setup a new office, KDDI will provide support from consultation to equipment installation. In addition, we will also help you to arrange meetings with general contractors, office furniture suppliers, and building management companies.

## Global support from KDDI Group worldwide

Our **5,200 personnel** based in **106 KDDI branches** across **27 countries** and **62 cities** are ready to provide comprehensive global support for customers.
