

From small overseas offices to large-scale factories

# Office Setup and Relocation Support

## We can provide for all of your ICT requirements

We can offer packages that have everything you need for an ICT setup, including: international communications networks, domestic networks, office LAN construction, deployment of servers and other devices, construction of data centers and cloud environments, audio environment setup, and security measures.

## Support from our staff versed in international IT situations

Our local personnel who are highly knowledgeable in different nations' regulations, legal systems and business customs will give you the support you need to set up an ICT environment in another country. After your new office is established, staff who can speak both Japanese and the local language can help you maintain and run your new network.

## Supporting your coordination with affiliate offices

For customers relocating or setting up a new office or building a new factory, KDDI provides support from consultation to cable installation to device settings. We also help arrange meetings with general contractors, office furniture and interior suppliers, and building management companies.

## Strong support from the KDDI Group worldwide

Around **5,500** personnel in **107** KDDI branches across **28** territories and **63** cities are ready to provide comprehensive global support.

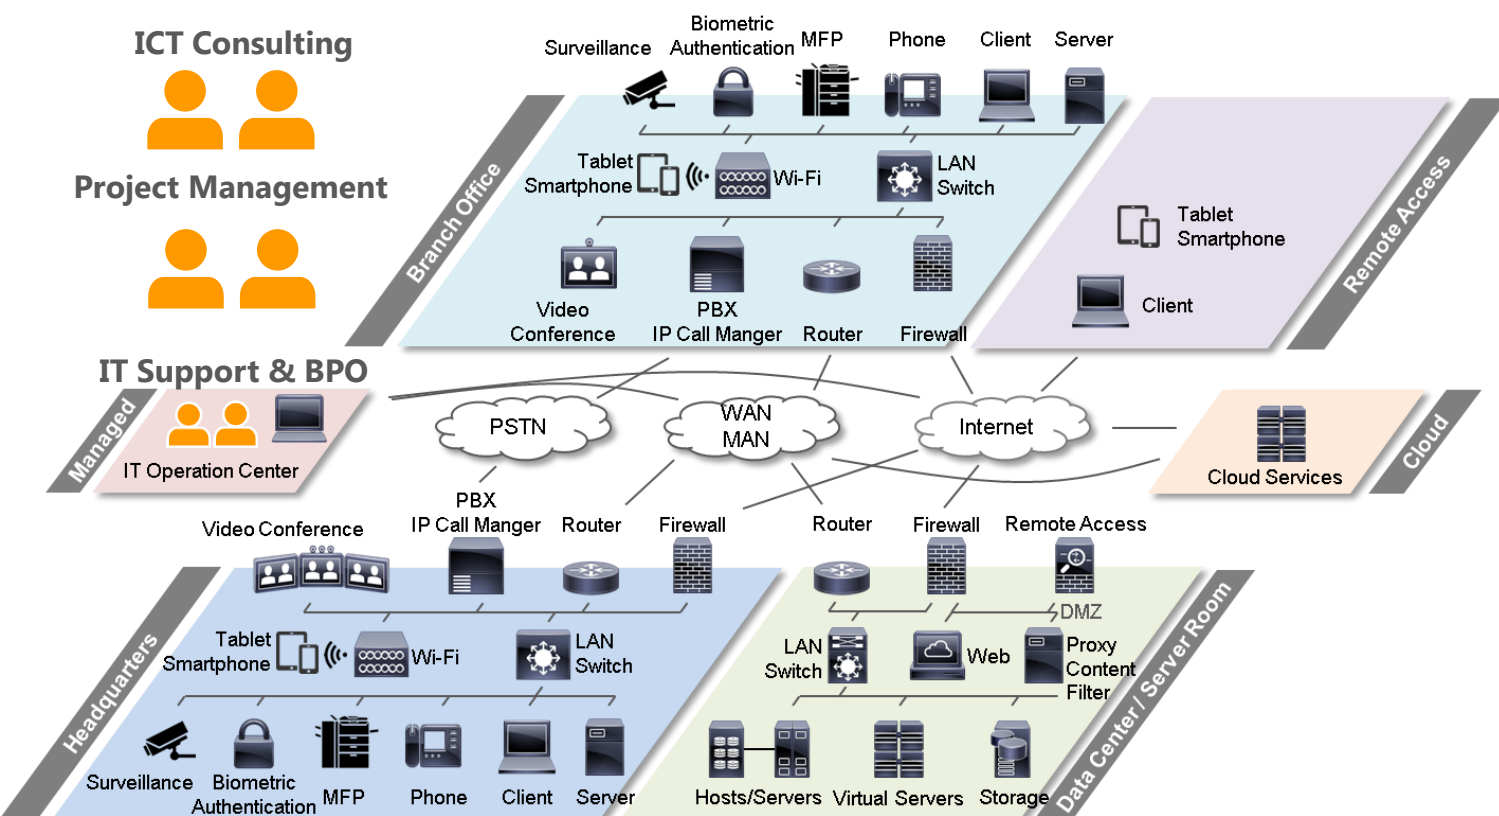

Highly experienced with big projects

Knowledge about local conditions

Close coordination among KDDI Group

**KDDI uses its over 30 years of experience as a provider of ICT solutions to meet your business needs.**

# Solution Service Map

# Solution Example

## Manufacturing Company A

### Project: Relocate office, construct factory infrastructure

- Company A wanted to set up a new factory's infrastructure, deploy systems and relocate an office.
- KDDI provided management, including negotiation with general contractors, carriers, building managers, etc. involved with setting up the new factory.
- KDDI also handled project progress reports back to company headquarters.

#### Our Offered Solution

- Management of ICT environment deployment
- Support for building IT infrastructure in factory
- Office relocation support, etc.

#### Advantages

- We manage projects with our knowledge of the systems, culture and commercial customs of the country being worked in.
- Completion on schedule, without delays.
- Even after implementation, we can help you run your ICT environment through our outsourcing service.
