

KDDI Chatwork

An intra-office cloud-based SNS service that accelerates your business

Group chat allows efficient exchange of information

Create group chat rooms by project, keeping out irrelevant information and raising productivity

Easily share files

Even large files can be easily shared. Download and view shared files at any time.

Have face-to-face meetings from anywhere

Remote video conferences can be held using PCs, tablets or smartphones.

ALL in one!
Reduce time taken for work

Communication by 54%

*Based on KDDI internal survey of time taken for before-and-after adopting Chatwork

Available as global contract in Japan or as separate contracts by local office
